Graphic Display:

Preview before printing

Compact And Portable

Design: Ideal for sharing around the office

Create decorative labels:

Built-in templates for many design options

P-touch laminated labels – designed to last

Brother P-touch laminated TZe tapes consist of seven layers of materials, resulting in a thin yet extremely strong label. The thermal transfer ink is sandwiched between two protective layers of PET (polyester film), which protects the text against the effects of liquids, abrasion, temperature, chemicals and sunlight.

As the labels have been tested to the extreme, you can be confident of a professional quality label that has been designed to last.

Water Resistant

Temperature Resistant

Abrasion Resistant

Fade Resistant
